Staff Authority for Amendments to this Document

A resolution was passed by the Kankakee Area Transportation Study Policy Committee dealing with the power of staff to amend the **Transportation Improvement Program** at their July 17, 1996 meeting. The resolution reads as follows:

"Project implementation priority is given to the first year of the TIP. However, special circumstances may arise necessitating moving a second or third year project forward to the first year. When this occurs, such move will take place with no further action required of the Technical Advisory or Policy Committees. MPO staff at the next regularly scheduled meeting will advise the Technical Advisory and Policy Committee of the project advancement."

Fiscal Year

The fiscal year used for the project listing in this document is the State of Illinois fiscal year, which runs from July 1 through June 30. It is understood that different fiscal years exist for every unit of local government, and for the federal funding from which the projects are funded, but the State of Illinois fiscal year will be used.

Obligated Projects

The current federal legislation regarding transportation, the MAP-21 bill, requires that an annual list of projects which were obligated in the previous program year be shown in the Transportation Improvement Program document. At a minimum, this list should contain:

1. The project name and brief description;
2. The federal amount obligated;
3. The total project cost estimate;
4. The project sponsor; and
5. "Visualization" of the project(s).

The document is posted each year to the on-line website of the Kankakee County Planning Department at http://planning.k3county.net.

Section II: Public Transit Element

Public Transit Improvement Projects

Public Transit Operators

This section of the report deals with two transit programs operating within portions of the Kankakee Urbanized Area. A rural transit service, operated through Kankakee County, through their service provider, SHOW BUS, operates with Section 5311 funding from the Federal Transit Administration, with Downstate Operating Assistance Program funding from the State of Illinois, and with local matching funds. An urban transit service, operated through the River Valley ***METRO*** Mass Transit District, operates with Section 5307 funding from the Illinois Department of Transportation, with Downstate Operating Assistance Program funding from the State of Illinois, and with local matching funds.

Both operations obtain capital funding assistance through the FTA and IDOT, with the rural service utilizing Section 5311 funding, and the urban service using Section 5307 funding. Discretionary capital funding is available to the urban service through the use of Section 5309.

On the following pages, Kankakee County Rural Transit service funding is shown with a gray shading. In Transit, Local Highway Projects, State Highway Projects and Bicycle and Pedestrian Projects, there are assigned TIP Numbers, shown in blue in the project description box. These TIP Numbers are used by IDOT and FHWA for tracking purposes throughout the life of the project.

MPO Boundaries

The map on the following page shows the boundaries of the Kankakee Area Transportation Study as they currently exist. The map also shows the 2040 Planning Horizon Boundary, which the current Long-Range Plan assumes will be the Urbanized Area boundaries in the year 2040. All of the projects in the **FY 2017 Transportation Improvement Program** are within the boundaries shown as current on the map on the following page.

Section VI: Opportunities for Public Input

Citizen Involvement and Participation

Numerous public meetings on various topics have been held or attended by Kankakee Area Transportation Study (KATS) staff from July 1, 2015 through the writing of this report. Through the end of June, 2016, it is anticipated that staff attended and the public was in attendance or invited to attend well over 100 meetings.

KATS meeting are announced in the newspaper, and agendas for the meetings are distributed to the local media for public service announcements and, inviting the media to attend. The agendas are also sent to ten area libraries for public posting. Agendas are posted to the Kankakee County Planning Department website. All major planning documents are posted into the Public Comment section of the website for a period of time before action is taken to approve the documents at Committee meetings. http://planning.k3county.net/kats_docs.htm

Each year, the Transportation Division of the Kankakee County Planning Department places an ad in the newspaper inviting people to review our website and to participate in our public meetings.

Section VII: Public Participation Plan

The Kankakee County Planning Department, acting as the Metropolitan Planning Organization (MPO) for the Kankakee, Illinois Urbanized Area and through the Policy Committee of the Kankakee Area Transportation Study (KATS), adopts the following Plan to promote public involvement in transportation planning.

The intent of the Kankakee Area Transportation Study Participation Plan is to provide a process for meaningful public input into transportation decision-making. This process includes offering reasonable opportunities for the public to be informed and involved in the development of transportation plans and programs in the metropolitan area. Proactive outreach to educate and inform the public about transportation issues and options, and to elicit input from the public on transportation issues, is integral to the process.

Consistent with the principles underlying SAFETEA-LU, outreach is conducted early in the planning process, and is designed to ensure participation by traditionally underserved populations. The metropolitan transportation planning area refers to the City of Kankakee, the Villages of Aroma Park, Bourbonnais, Bradley and Manteno, and the adjoining portions of Kankakee County anticipated to be developed over the next 20-year period, and as defined in the Long Range Transportation Plan.

Therefore, the Kankakee County Planning Department shall provide a reasonable opportunity to comment on proposed plans for citizens, affected public agencies, representatives of public transportation employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transportation, representatives of pedestrian and bicycle transportation facilities, representatives of persons with disabilities, and other interested parties.

Components or objectives of the existing public involvement process followed by the Kankakee County Planning Department have been revised to incorporate elements required of a Participation Plan process by 23 CFR Part 450.316 pursuant to Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), (Public Law 109-59, August 10, 2005). Sections A through C of the Participation Plan address the participation process. Section D addresses the agency consultation process required by SAFETEA-LU of the metropolitan transportation plans and programs.

Section A: Participation Plan Elements

1. Public notification will be provided not fewer than 15 days nor more than 30 days in advance of consideration of action by the Policy Committee of the Kankakee Area Transportation Study on proposed long range (metropolitan) transportation plan updates, transportation improvement programs. Amendments to these planning documents will require a minimum of 7 days public notification prior to approval.

    a. To provide time for full public review and comment on the draft participation plan, and pursuant to 23 CFR §450.316(a)(3), public

notification will be provided no less than 45 days in advance on consideration of action on this document by the Policy Committee of the Kankakee Area Transportation Study.

b. The draft Transportation Improvement Program (TIP) will be reviewed by members of the Technical Advisory Committee and will be made available to the general public, as specified below, for review and comment. Pursuant to 23 CFR 450.316(b)(1)(iv), the public review and comment period will extend a minimum of 30 days. Comments during the thirty-day period should be submitted in writing. One public hearing for the TIP will be held prior to its adoption, during which public comments will also be received. A public meeting will be held for TIP amendments as required pursuant to 23 CFR 450.104. Events defined as requiring an amendment to the TIP include major changes to a project, including the addition or deletion of a project or a major change in project cost, project/phase initiation dates, or a major change in design concept or design scope.

c. The Long Range Transportation Plan will be available to the general public for a 45 day review and comment period. A public hearing on the Long Range Plan will be held prior to its adoption.

2. A meeting notice will be provided by mail to local news media one week in advance of each regular Technical Advisory meeting and Policy Committee meeting. Reasonable access to available information about MPO sponsored transportation studies in the metropolitan area will also be provided.
3. Available resources, including web-based mapping, published maps and illustrations and other graphic data will be used by the MPO to visually convey information related to and improving understanding of metropolitan transportation plans and programs.
4. Public information related to transportation plans and programs and meeting notices of the Kankakee Area Transportation Study will be provided electronically on the World Wide Web, www.planning.k3county.net, including draft and final versions of the Participation Plan. The website will also provide meeting agendas and minutes, information on the purpose, programs and structure of the Kankakee County Planning Department, information on MPO planning projects and studies, and contact information for MPO staff.
5. Public meetings sponsored by the Kankakee County Planning Department will be held at convenient locations and times. A citizen information period will be provided during each regular MPO meeting.
6. Public input received during the development of the metropolitan transportation plan and the transportation improvement program will be given consideration by the MPO. Significant public comments received will be reported by staff to the Technical Advisory Committee and the Policy Committee.
7. Outreach efforts seeking input on metropolitan transportation plans and programs from low income and minority households traditionally underserved by existing transportation systems will be continued and documented. All public participation activities of the Kankakee County Planning Department shall be

conducted to permit involvement by persons with disabilities and by persons with limited English proficiency (by special arrangement).

8. Public notices advising citizens in the metropolitan area of the availability of draft transportation plans and transportation improvement programs in local public libraries will be continued. Additional opportunity for public comment will be provided if the final metropolitan transportation plan or transportation improvement program differs significantly from the version initially made available for public review.
9. The implementation of the Kankakee County Planning Department Participation Plan will be coordinated with the statewide transportation planning public involvement and consultation processes developed, as appropriate, with agencies and officials responsible for other planning activities within the metropolitan area that are affected by transportation.
10. The overall effectiveness of procedures and strategies contained in the Participation Plan to ensure a full and open participation process will be reviewed periodically by the Kankakee County Planning Department.
11. The MPO website http://www.k3county.net will be advertised in the local daily newspaper of greatest circulation at least one time per year, with instructions detailing how to use the website, and instructions on how to give comment about the subjects open for public comment.

Section B: Disposition of Significant Comments

1. When significant comments are received on the draft Long Range Transportation Plan or the Transportation Improvement Program as a result of the Participation Plan, a summary, analysis, and report on the disposition of comments shall be made as part of the final Long Range Plan and Transportation Improvement Program.

Section C: Agency Consultation on Other Planning Activities

1. As the transportation plan and the transportation improvement program are developed, the MPO shall consult, as appropriate, with agencies and officials responsible for other planning activities in the metropolitan area affected by transportation in order to coordinate planning functions to the maximum extent practicable. Contributions involve the formulation of regional and local planning and development policy, and the implementation of program and project objectives are possible consultation issues.
2. The Kankakee County Planning Department process for public review, participation and comment on the Transportation Improvement Program serves as the public participation process for the River Valley METRO Mass Transit District Program of Projects.
3. The nature of the consultation shall include comparison of metropolitan plans and transportation improvement programs, as they are developed, with the plans, maps, inventories, and planning documents developed by other agencies.
   Interested parties, public and private, responsible for planned growth, economic development, environmental protection, airport operations, freight movements, land use management, natural resources, conservation, and historic preservation in

the Kankakee Area Transportation Study shall be included in the planning consultation process, as appropriate. Interested parties whose early and continuous involvement shall be sought include but are not limited to affected public agencies, representatives of public transportation users and employees, freight shippers and providers of freight transportation services, private providers of transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, and citizens. Interested parties shall have access to timely information about transportation issues and decision-making processes and to avenues for direct involvement in the transportation planning process.

4. Metropolitan transportation plans and transportation improvement programs shall be developed with consideration for governmental agencies and non-profit organizations receiving federal assistance from a source other than the U.S. Department of Transportation for the design and delivery of non-emergency transportation services.
5. The MPO, in cooperation with the federal Highway Administration, shall provide to all interested parties access to an annual listing of Federally Obligated Projects.
6. The MPO will consider the future development of an operations plan for consulting with other governmental agencies responsible for the development of plans affected by transportation in the metropolitan area.

Section D: Public Participation Plan Evaluation

1. Pursuant to 23 CFR 450.316(a)(1)(x), the Kankakee County Planning Department shall conduct periodic review of public participation activities and initiatives, and shall revise or amend the Public Participation Plan as needed to enhance public participation in the transportation planning process.
2. Postings to the Planning Department website shall be inventoried and monitored to assess completeness, timeliness and ease of access. Technology to assess frequency of website viewings shall be used to evaluate the impact of the website in providing information and participation opportunities to interested parties and the public.
3. All meeting agendas and minutes of the Technical Advisory Committee and Policy Committee shall be made available on the Commission website. As practicable, supporting documentation cited in agendas and minutes shall also be made available through the website. Website postings relating to the Committees shall be monitored and evaluated pursuant to Section D, paragraph 2, above.
4. The Kankakee County Planning Department shall conduct ongoing assessment of the implementation of the Public Participation Plan elements as set forth in Section A, paragraphs 1-11, above.
5. In addition to the evaluation described in paragraph 4, above, evaluation criteria shall include the elements presented in Table 1, below, which shall be considered by the Kankakee County Planning Department, the Technical Advisory Committee and the Policy Committee in assessing the Public Participation Plan:

Additional Information:
Brookmont Boulevard is an east-west corridor between US 45/52 and IL 50. The intersection with the CN/Illinois Central Railroad is grade separated. Brookmont Boulevard traverses under the railroad. The current pavement to bridge height is 12'-2". This greatly restricts trucks and emergency vehicles from using Brookmont boulevard. The proposed improvements will provide an unobstructed access fro trucks and emergency vehicles.

PUBLIC NOTICE FOR DRAFT FY 2017 TRANSPORTATION IMPROVEMENT PROGRAM

The Kankakee Area Transportation Study has developed a DRAFT FY 2017 Transportation Improvement Program (TIP) for the area, which lists highway and transit projects for the next four (4) years which utilize Federal and State funding.

This document is now in a public participation phase, in which public comment is encouraged. The document is now available to view on the Kankakee County Planning Department web site: http://planning.k3county.net . Copies of the document are available for inspection in the office or through special arrangements for purchase or loan. Written comments are encouraged and will be presented to the Policy Committee at their June 29, 2016 meeting. Please stop in any time Monday through Friday from 9:00 AM to 12:30 PM, and 1:30 PM to 4:30 PM, at the offices of the Kankakee County Planning Department, 189 E. Court Street, Kankakee, Illinois 60901 or call (815) 937-2940.

There will be a public hearing during the Kankakee County Regional Planning Commission Land Use and Transportation Subcommittee meeting on June 16, 2016 at 10:00 AM, in the 2nd Floor Conference Room of the Kankakee County Administration Building, 189 E. Court Street, Kankakee, Illinois 60901.

NOTE: The public involvement activities and time established for public review and comment on the TIP will satisfy the Program of Projects (POP) requirements of the Urbanized Area formula Grant Program (49 USC Section 5307) for FTA grantee River Valley METRO Mass Transit District.

The Daily Journal is looking for horticultural interns to help care and maintain its two organic gardens this summer at the historic Stonebrook Farm in Limestone Township. The farm is the backdrop for the Daily Journal's annual editorial series that is published weekly in the LIFE section.

Responsibilities include regular weekly visits to Stonebrook Farm to help plant seeds and transplants; help cultivate and work the soil; manage compost bins; weeding and watering; caring for established plants by mulching, deadheading/trimming, staking and fertilizing; and partaking in harvesting to keep plants prosperous.

Internships are available to college-level students studying horticulture or related fields. Interns will receive course credit in exchange for an educational work experience.

Knowledge and Skill Requirements:

- Experience, knowledge and previous studies of horticulture and gardening, preferably organically.
- Ability to lift 25 pounds and do outdoor, physical work, often in high heat and humidity, rain, and colder temperatures.
- Excellent communication skills and well organized with attention to detail.
- Willingness to take direction, learn new things and problem-solve creatively.
- Willingness to participate in the editorial series with photos and videos.
- Experience and motivated interest in organic gardening, nutrition, and building a healthier food system.
- Willingness to bring personal equipment, such as hand tools, shovels, rakes, hoes, etc. for work in the garden.
- Willingness to adhere to rules of the farm as dictated by Life Editor and Property Manager(s).
- Valid driver's license and proof of insurance.
- Dependable vehicle for work use.

INTRODUCTION

The Federal Transit Authority (FTA) has set forth requirements in the FTA Circular C4702.1B, for compliance with Title VI provisions of the Civil Rights Act of 1964.
The purpose of FTA Circular C4702.1B is to provide recipients of Federal Transit Administration financial assistance with guidance and instructions necessary to carry out U.S. Department of Transportation (USDOT) Title VI regulations (49 CFR part 21) and to integrate into their programs and activities considerations expressed in the USDOT's Policy Guidance Concerning Recipient's Responsibilities to Limited English Proficient ("LEP") Persons (70FR 74087, December 14, 2005).
Title VI of the Civil Rights Act (42 U.S.C. 2000-1) states that "No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program, or activity receiving Federal financial assistance."
The Executive Order on Environmental Justice further amplifies Title VI by providing that "each Federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations."
Kankakee Area Transportation Study (KATS) is a recipient of FTA and Federal Highway Administration (FHWA) planning funds via the Illinois Department of Transportation (IDOT). These funds are used to complete Metropolitan Planning Organization (MPO) related transportation planning elements. These elements include the Unified Work Program (UWP), the Transportation Improvement Program (TIP), and the Long-Range Transportation Plan (LRP).

General Requirements of the Title VI of the U.S. Civil Rights Act

According to FTA regulations, all applicants applying for assistance under the FTA activities must give a concise descriptions of the following or lack thereof:

1. Any lawsuits or complaints alleging discrimination on the basis of race, color, or national origin filed against the applicant within the past year together with a statement of status of outcome of each complaint or lawsuit.
    a. There have been no lawsuits or complaints naming KATS that allege discrimination on the basis of race, color, national origin with respect to service or transit related benefits.
    b. There have been no Title VI complaints with KATS in the last three years.
    c. There were no facility impact analyses for construction projects funded by the FTA within the past three years.
2. Any pending application by the applicant to any Federal agency other than FTA.
    a. There are no pending applications to any Federal agency other than FTA.
3. Any civil rights compliance review performed or being performed on the applicant by any local, state, or Federal agency during the two-year period before the applicant together with a statement of the status or outcome of such reviews.
    a. There have been no Civil Rights compliance reviews in the last three years.

4. The manner in which Title VI will be enforced by the grantee in regard to contractors.
   Each contract with KATS shall include the following (or similar) statement in the contract agreement:

   "During the performance of the contract, the Contractor shall comply with the provision of Title VI of the Federal Civil Rights Act of 1964. A copy of said provisions is attached hereto, and by this reference, is made a part of this Contract. The Contractor shall insert a similar provision in all subcontracts for services covered by this Contract."

   In addition, should any complaints arise alleging noncompliance with Title VI, KATS will take the appropriate and required legal action.

AGENCY BACKGROUND

In 1962, Congress approved the Federal-Aid Highway Act. This required that in urbanized areas, programs for Federal-Aid Highway projects approved after July 1, 1965 must be based on a "Continuing and comprehensive transportation planning process carried on cooperatively by states and local communities." The authority for transportation planning in the Kankakee Metropolitan Area lies in the Metropolitan Planning Organization (MPO), which includes all local officials. The MPO consists of the local and state officials for the area, meeting on a regular basis, to discuss the performance of transportation planning for the area.
By Federal law, when an urban area reaches the 50,000 population level, a Metropolitan Planning Organization is required to exist for that area. This level of population was reached in the 1980 Census for the Kankakee Urbanized Area, and the Kankakee Area Transportation Study (KATS) was created in 1983 to meet the requirements of that law.
The current members of KATS are the City of Kankakee, the Villages of Aroma Park, Bourbonnais, Bradley, and Manteno, Kankakee County, the Illinois Department of Transportation, the Kankakee Valley Airport Authority, and the River Valley METRO Mass Transit District.

KATS Organizational Structure

KATS is governed by a Policy Committee of elected and appointed members, and is advised by a Technical Advisory Committee which is made up of technical personnel from the seven member agencies. The MPO committees meet on a regular basis to discuss current progress and future needs in transportation planning.

KATS Policy Committee

The KATS Policy Committee consists of local elected and appointed officials of those agencies that have a primary interest in transportation. Each Member is expected to reflect the official position of his or her constituent agency and/or the public interests they represent. The Policy Committee members are:

- President, Village of Aroma Park (elected)
- President, Village of Bourbonnais (elected)
- President, Village of Bradley (elected)
- Regional Engineer, IDOT (appointed)
- Mayor, City of Kankakee (elected)
- Chairman, Kankakee County (elected)
- Chairman, Kankakee Valley Airport Authority (appointed)
- President, Village of Manteno (elected)
- Managing Director, River Valley METRO Mass Transit District (appointed)

This committee assumes the decision-making authority for KATS and establishes policies that guide and form the transportation planning process. The committee has a variety of responsibilities, which range from approving the annual Transportation Improvement Program (TIP) to helping establish the metropolitan planning boundary of the study area.

KATS Technical Committee

The KATS Technical Committee consists of technical personnel from the nine local participating agencies. It makes recommendations concerning transportation-related issues to the Policy Committee for their approval. The Technical Committee members are:

- Village Engineer, Village of Aroma Park
- Village Engineer, Village of Bourbonnais
- Village Engineer, Village of Bradley
- Urban Planner, IDOT, District 3
- City Engineer, City of Kankakee
- County Engineer, Kankakee County
- Manager, Kankakee Valley Airport Authority
- Village Engineer, Village of Manteno
- Managing Director, River Valley METRO Mass Transit District

KATS Staff Structure

KATS staff performs the daily operations of the agency, with technical knowledge in transportation systems planning and other related areas. The staff, in conjunction with KATS member agencies, collect, analyze, and evaluate transportation data to determine the transportation system requirements of the MPO. They also prepare materials for the Technical and Policy Committee meetings, as well as any other meetings and subcommittees. KATS Staff

participate in all KATS meetings and provide technical input as needed. They also represent their agency at other meetings of importance to the panning activities in the region. The KATS Staff consists of:

- Executive Director
- Office Manager
- Transportation Program Manager
- Transportation Planner
- Transportation Technical Assistant
- Graphical Support
- Secretarial Support

SUMMARY OF KATS TITLE VI COMPLIANCE

KATS has collected demographic data on race, ethnicity, minority groups, income level, and language spoken at home or participants and beneficiaries of federally funded programs through Census data, public opinion surveys, and self-identification on questionnaires. KATS uses this in transportation planning for the following reasons:

- To determine any adverse impacts or benefits of potential projects on minority and low income neighborhoods.
- To ensure equality in evaluating project applications submitted for inclusion in the Long-Range Transportation Plan and the Transportation Improvement Program.
- To develop public outreach strategies.

The data collected are reviewed to ensure that KATS continues to meet the requirements of the Title VI Program.

PUBLIC INVOLVEMENT PLAN

The intent of the Kankakee Area Transportation Study Participation Plan is to provide a process for meaningful public input into transportation decision-making. This process includes offering reasonable opportunities for the public to be informed and involved in the development of transportation plans and programs in the metropolitan area. Proactive outreach to educate and inform the public about transportation issues and options, and to elicit input from the public on transportation issues, is integral to the process.

KATS Public Participation Plan can be read in full in the KATS Transportation Improvement Program. Below are some of the key points of the Plan:

- Public notification will be provided for no fewer than 15 days nor more than 30 days in advance of consideration of action by the Policy Committee on proposed Long-Range Transportation Plan (LRP) updates and Transportation Improvement Program (TIP) amendments. Amendments to these planning documents will require a minimum of 7 days public notification prior to approval.
- A meeting notice will be provided by mail to local news media one week in advance of each regular Technical Advisory meeting and Policy Committee meeting. Reasonable access to available information about MPO sponsored transportation studies in the metropolitan area will also be provided.

- Public information related to transportation plans, programs, and meeting notices of KATS will be provided electronically, online at planning.k3county.net, including draft and final versions of the Participation Plan. The website will also provide meeting agendas and minutes, information on the purpose, programs, and structure of KATS, information on MPO planning projects and studies, and contact information for MPO Staff.
- Public meetings sponsored by KATS will be held at convenient locations and times. A citizen information period will be provided during each regular MPO meeting.
- Public input received during the development of the LRP and TIP documents will be given consideration by the MPO. Significant input will be reported to the Technical Advisory Committee and the Policy Committee.
- Outreach efforts seeking input on the LRP and TIP documents from low income and minority households traditionally underserved by existing transportation systems will be continued and documented. All public participation activities of KATS shall be conducted to permit involvement by persons with disabilities and by persons with limited English proficiency (by special arrangement).
- The MPO website, planning.k3county.net will be advertised in the local daily newspaper of greatest circulation at least one time per year, with instructions detailing how to use the website, and instructions on how to give a comment about the subjects open for public comment.
- The KATS process for public review, participation and comment on the TIP serves as the public participation process for the River Valley METRO Mass Transit District Program of Projects.

POPULATION CHARACTERISTICS

This section describes the characteristics of the Kankakee Urbanized Area as delineated by the U.S. Census Bureau. Below, Figure 1-A shows the distribution of race and ethnicity in the urbanized area. Figure 1-B shows the same type of data, but for the rest of Kankakee County, outside the urbanized area. Figure 1-C shows the data with the population totals for each group with the percentages inside and outside the urbanized area. Seventy-two percent of the total population of Kankakee County resides within the urbanized area.

Figure 2 shows the distribution of median household income for the urbanized area. The race and ethnicity for each group is based on the head of household and not necessarily representative of all those within the household. Both American Indian or Native Alaskan and Native Hawaiian or Pacific Island have a very high margin of error associated with the estimated median income.

The following maps show the distribution of population in the region with transit routes and transfer centers for River Valley METRO Mass Transit District (METRO). Map 1 on page 14 shows the density of total population by census block, normalized by acreage. The highest density of people is 54.13 people per acre. The lowest is less than 2.9 people per acre. The block boundaries and population counts are from the 2010 Census. This map shows a representation of where people in the area are living in relation to the METRO routes. The routes have provide good coverage in relation to where people are living.

The estimate median household income in 2012 for the entire urbanized area was $47,415. There is a relatively high margin of error for two of the groups (American Indian and Native Alaskan; and Native Hawaiian and Pacific Islander). Map 2 on page 15 shows median household income by census tract. Areas that have a lower household median income are not underserved by METRO and METRO can provide transportation to areas where riders need to get to. The lowest income group ($17,587 - $27,999) is clustered in central and eastern Kankakee. The second lowest group ($28,000 - $42,999) is in western and southern Kankakee, extending into southeast Bradley and southern Bourbonnais.

According to the 2010 Census, the total number of non-white people in the urbanized area is 20,830. Map 3 on page 16 shows the percentage of minority population by census tract. The highest percentage range (67.1% - 92%) of minorities is in central Kankakee. This area is bordered on the east and west by the second highest percentage range (40.1% - 67%). Neither of these areas has a shortage of transit routes serving them.

Within the urbanized area, there are a total of 8,231 people of Hispanic ethnicity. Map 4 on page 17 shows the percentage of Hispanic persons by census tract. The highest percentage range (20% - 28.4%) of Hispanic population is in central Kankakee. The area of the second highest percentage range (15% - 19.9%) is on the eastern edge of Kankakee and the urbanized area. The total estimated percent of persons with Limited English Proficiency (LEP) in the urbanized area is 3.7 percent. Map 5 on page 18 shows the percentage of LEP persons by census tract. The highest percentage range (11.1% - 16.5%) of LEP persons is in central Kankakee and that area is neighbored to the west by the second highest percentage range (6.1% - 11%). Both areas have access to METRO transit routes; as do the lower percentage areas.

METRO Spanish Publication

Every month, the newspaper Paisanos is published by The Daily Journal. Paisanos is a Spanish print newspaper. The center four pages are sponsored by River Valley METRO. The centerfold is a system wide route map. Also, in the back of the paper are ads for River Valley METRO for their service, entirely in Spanish.
